

Starway Middle East Facility Management Services (UAE)

Starway Limited Company (KSA)

Starway Industrial Services (India)

Starway industrial Training Centre (India)

**TECHNOLOGY
PARTNERS**

Abu Dhabi | India

www.StarwayGroup.Co

OUR VISION

To be the leading technology partner for downstream sector of oil and gas and engineering industries.

OUR MISSION

- Provide and develop the services to our clients by introducing new technologies and to the global standards.
- Satisfying client needs with cost effective, time optimization and long-term solutions.
- Focus on continual improvement on the services offered.

OUR VALUES

- Create and maintain customer and employee friendly environment.
- Prioritize employee welfare.
- Quality, Health, Safety and Environment as a culture.
- Empowering employee for innovative approach.
- Consider customer feedback as key to business

INTRODUCTION

STARWAY GROUP OF COMPANIES (SGOC) was established in the year 2002 with the aim of providing industrial services for Oil and Gas, Engineering and other Industrial Sectors. Our expertise includes Shutdowns and Turnarounds work, Catalyst Handling, Industrial Cleaning, Fabrication works and Specialized Manpower Support Services to different industries by committing to complete responsibility towards installation, maintenance, testing, and commissioning, in addition we have established a training and assessment facility for various categories to develop/re-in force the skill matrix of the personnel to cater the requirements of our clients in meeting the international standards.

SGOC will be delivering its services with the following establishments to cover UAE, India and other Asian countries.

STARWAY Middle East Facility Management Services (UAE)
 STARWAY Limited Company (KSA)
 STARWAY Industrial Services (India)
 STARWAY industrial Training Centre (India)

We would like to bring in our hands-on knowledge and expertise to offer our services with advanced technological solutions across wide range of industrial sectors meeting the quality, health, safety, and the environmental standards. Our strength would be to provide support to our valuable clients/partners with integrated service model utilizing our specialized services and with best economic model.

SERVICE PORTFOLIO

PLANT SHUTDOWNS & TURNAROUNDS

SGOC being in the service industry over a decade and have built in the complete knowledge and experience in Plant Turnarounds and Shutdowns including overall management, planning and execution. Capabilities range from small, medium and large shutdowns/turnarounds starting from scoping, planning, estimating, budgeting, preparation and execution including the sub-contractor management by meeting all the requirements towards quality, safety and environment standards.

CATALYST HANDLING

SGOC over the years have grown stronger and developed complete skill set for catalyst handling and packed tower services, with special expertise in inert and toxic environments. We can offer quality – assured solutions for removal, replacement, loading, reinstatement of catalyst, pall and rasching rings, ceramic balls, pellets and other internals under normal and inert conditions. We also offer specialized skimming and unloading of unregenerated catalyst in a nitrogen atmosphere and the loading of reactors with fresh, regenerated or unregenerated catalyst.

Our capabilities cover replacement of catalyst in all type of Reactors, Vessels, Dryers, Adsorbers, Reformer tubes, Tubular reactors and loading using both sock and dense loading technologies.

BUNDLE PULLING SERVICES

SGOC's bundle pulling and inserting capabilities are wide with the highly skilled and experienced operators who can handle different ranges of heat exchanger bundles using various international bundle pullers.

FLANGE/JOINT INTEGRITY MANAGEMENT (BOLT TENSIONING & TORQUING)

Joint Integrity/Flange Management will assure the integrity and is a key for any successful completion and startup of a plant upon completing the activities during shutdowns/turnarounds and or projects. SGOC will be able to support and offer this with a complete documented process starting from marking/tagging, database creation, inspection, materials management, witnessing and controlled bolt torquing and tensioning. SGOC can handle this with the specialized team comprising of Inspectors and bolting technicians who are highly qualified and will be trained, certified in our training facility.

INDUSTRIAL CLEANING

Industrial cleaning capability of SGOC covers high pressure water jetting for exchanger/cooler tubes and shells, vessels/tanks sludge removal and cleaning including Robotic no man entry cleaning, pipelines and sewage system cleaning. We have been accredited by WJA and also being a part of Global Industrial Cleaning Coalition to continuously improve the standards and follow international best practices using advanced automated technology.

SGOC uses its own training facility to give complete awareness and guidance to all the workforce in complying to the latest automated technologies and focus on high standards of cleaning quality, safety and reduced cleaning duration.

SKILLED AND SPECIALIZED MANPOWER SUPPORT SERVICES

SGOC can provide different skilled and specialized manpower trades to cover shutdowns/turnarounds, mechanical projects, piping, structural, civil etc. to cover all the oil & gas, petrochemical and other engineering industries. We have the complete resource database and would be capable to support our client's requirements in shortest possible time.

MECHANICAL WORKS, FABRICATION & CIVIL (INDUSTRIAL) SERVICES

SGOC can handle and provide turnkey mechanical projects for small to medium sized EPC projects, construction/ modification works, piping and structure including minor civil works, Pre-commissioning and commissioning. The list of services includes but not limited to the following,

- New mechanical construction and plant modification steel structures for petrochemical, steel plants, building structures, supporting structures like platforms, ladders, handrails, grating and miscellaneous steel works.
- Supply of industrial materials to the petrochemical industries such as insulation, pipe fittings, pipes, bolts, nuts and consumables.
- Column internals replacement works, pall and rashing rings, pellets and other internals removal and installation under normal and inert atmospheres
- Supply of fabricated steel structure (Painted/ Galvanized).
- Fabrication and supply of auxiliary structure.
- Fabrication and supply of miscellaneous steel structure.
- Construction of steel buildings.
- Fabrication and supply of painted storage tanks to refineries steel plants and chemical plants.
- Construction of warehouses for manufacturing industry, industrial services industry and supplier industry.
- Construction of generator buildings for chemical plants, petrochemical refineries and power plants.
- Fabrication and supply of pipe spools to major petrochemical construction companies.

Jobs Undertaken :

- Manufacturing & Erecting of LCD Structural work for Abu Dhabi Cricket Stadium.
- Adhoc-Fod Elect., Mech. & Civil Maintenance of Filling Stations.
- General Steel Structure Works
- Erecting of Warehouses.
- Platforms, Saddles, Pipe Clamps, Pipe Racks.
- Mono Rails, Crane Girders.
- Fuel Tanks, Cement Silos, Skips, Tube Oil Tanks.
- Mono Rails, Crane Girders. Fuel Tanks, Cement Silos, Skips, Tube Oil Tanks. Handrails, Chequered Plates, Grating Cover & Ladders. Insert Plate, Insert Angle & Insert Frame Work.
- Anchor Bolts for Foundation.
- Stainless Steel/Mild Steel Flanges. Stainless Steel Tanks.
- Water Fountain Facilities.
- CNC Water Jet Cutting, Laser Cutting, Sheet Formation & Flame Cutting.
- Construction of Elevator Structures (M.S.) Aluminum Powder Coated Sheet with S.S Cladding Doors
- Construction of Staircase with Steel Hand Rail.
- Construction of Mezzanine Floor.
- Aluminum windows. S.S Structural works

ROBOTIC TANK CLEANING -ESOT

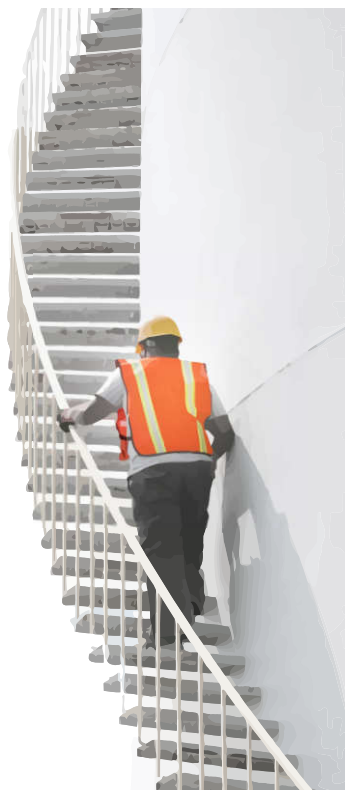

The Robotics ESOT-system is utilized in combination with a vacuum truck for suctioning, discharging and transporting fluids and hazardous substances, such as liquids, sludge, fats, oils, fuels and chemicals. Specially developed for handling hazardous and contaminated substances, the robot is certified for ATEX (Ex) zone 0. The transportable, vented cabin (TVC) is available in an ATEX (Ex) zone 1 and zone 2 version and built in accordance with all applicable safety standards.

APPLICATION AREAS

- › Oil & Gas Industries (Onshore & Offshore) and Refineries
- › Petrochemical (Plants) Industries
- › Fertilizers
- › Power Plants (Stations)
- › Operation & Maintenance of Various Plants
- › Steel Industries
- › Small Scale Engineering Industries
- › Ship Building & Repair
- › Major Projects in Civil, Mechanical & Allied Services
- › Pulp and Paper Factories

OUR CLIENTS

GCC

- EMDAD SERVICES - Abu Dhabi, UAE.
- INTERGULF GERENRAL CONTRACTING-Abu Dhabi, UAE.
- ANABEEB - QATAR.
- AL MUZAIN-Saudi Arabia
- ECO SOLUTIONS AND ALTERNATIVE TECHNOLOGIES -Abu - Dhabi, UAE.
- CHR-ABUDHABI, UAE
- SSQ- Saudi Arabia
- DELIGHT INTERNATIONAL- Abu Dhabi, UAE
- GSCME- Abu Dhabi
- DUBAI CABLE CO. (PRIVATE) LTD. (DUCAB).
- ABU DHABI OILFIELD SERVICES CO. (ADOS).
- SAINT GOBIAN GYPROC EMIRATES INDUSTRIES L.L.C.
- NEW MEDICAL CENTRE (NMC)
- AMANA CONT. & STEEL BUILDING. CO. L.L.C
- SHAPOORJI PALLONJI MIDEAST CO. L.L.C.
- SUNGBO DEVELOPMENT CO. LTD.
- DHABI ENTERPRISES EST.
- SONIC STEEL FABRICATION EST.
- NEO PARMA ICAD MUSSAFAH
- AL AIN GENERAL CON. CO.

- TERNA ABU DHABI.
- N.M.C SPECIALTY HOSPITAL L.L.C.
- AL DIAR DANA HOTEL.
- CORE LABORATORIES INTERNATIONAL B.V.
- NEW OILFIELD SERVICES CO. L.L.C.
- GUIDE GEN. CON. CO. L.L.C
- SQUARE GENERAL CON. CO. L.L.C.
- DANIEL STEEL CONST. CO.
- ADNOC-DISTRIBUTION FILLING STATIONS
- AL MASOOD LOGISTICS.
- EMIRATES CHEMICALS
- ECONOSTO ABU DHABI

India

- MRPL –Mangalore, India.
- BALURAM & BROS. CO. –Baroda Gujrath, India.
- CONTRACT RESOURCES (India)
- HYDROFLOW -Abu Dhabi, India
- JYOTSNA ENTERPRISES, Mumbai-India
- PLANT-TECH INDUSTRIAL SERVICES – Mangalore, India.
- RELIANCEINDUSTRIES -Jamnagar, India
- ESSAR OIL REFINERY -Jamnagar, India

TRAINING & DEVELOPMENT

Starway Industrial Training Center (SITC)

SGOC's Starway Industrial Training Centre is an advanced practical training and assessment facility to cover all the offered services in order to up skill our workforce to meet the requirements of our projects and as per the international standards.

We would also be happy to offer the same to our partners/clients on their request to utilise such services to provide training and awareness for the employees and workforce. The courses we offer:

- Certificate in Inert Entry/Breathing Apparatus (BA) Technician
- Certificate in High Pressure Water Jetting.
- Refresher Training in High Pressure Water Jetting
- Certificate in Bolt Tensioning and Torqueing.
- Confined Space Awareness Training Programs.
- Diploma in Industrial Safety.
- Refresher Training in Hole Watch/Fire Watch.
- Management Principles for Catalyst Handling & Hydrojetting.
- Certificate in QA/QC.
- Certificate in NDT.
- Hydrogen Sulfide (H₂S) Awareness.
- Rigging & Lifting.
- Scaffolding Safety Training.
- Fall Protection & Working at Heights.
- Ground Support for Catalyst Handling Hazards & Safety.

Accreditations :

AN ISO 9001-2015(QMS) & ISO 18001-2007 (OHSAS) CERTIFIED ORGANISATION
